

SUN INTERNATIONAL'S REPORT ON SUSTAINABLE DEVELOPMENT GOALS

The Sustainable Development Goals (SDGs) are the blueprint to achieve a better and more sustainable future for all. They address global challenges like poverty, inequality, climate, environmental degradation, prosperity, peace and justice. The SDGs interconnect and need to be achieved by 2030 so that no one is left behind. Sun International embraces the United Nations SDGs, and we endeavour to help achieve them through our operations and business strategies. Although Sun International is only formally aligning and assessing the relevant goals in 2019, we have been working towards addressing various SDGs in our ongoing sustainability journey.
